## Notes:

1. Adobe Camera Raw opens in Bridge.
2. Returns focus to Application from which Bridge was originally launched (e.g. Photoshop).
3. Bridge Advanced Preference for “Double-click Edits Camera Raw settings in Bridge” is set to Off (default - unchecked).
4. Bridge Advanced Preference for “Double-click Edits Camera Raw settings in Bridge” set to On (checked).
5. “Open Copy” is only available when Camera Raw opens in Photoshop.
